REASONS FOR ALLOWANCE

Election/Restrictions

1. Claims 1, 37 and 52 are generic and allowable and link claims depending therefrom. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 2-7, 14, 15, 22-36, 38-40, 42, 44, 47, 51, 53 and 55-63 are no longer withdrawn from consideration since these claims depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

2. Claims 1-15, 17-40, 42-53 and 55-64 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest, "an alignment plate mounted onto the first stack of substrates, the alignment plate configured to align the demultiplexed lambda signals

into parallel collated beams” as set forth in the claimed combination. Claims 2-15 and 17-36 are also allowable since they are dependent from claim 1.

Claim 37 is allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest, “providing a first alignment plate to align the first stack of substrates” as set forth in the claimed combination. Claims 38-40 and 42-45 are also allowable since they are dependent from claim 37.

Claim 52 is allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest, “an alignment plate to align the first stack of substrates” as set forth in the claimed combination. Claims 53 and 55-63 are also allowable since they are dependent from claim 52.

Claims 46-51 are allowable as indicated in the previous office action.

Claims 1, 37 and 52 are allowable for the reasons provided in the previous office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alessandro V. Amari whose telephone number is (571) 272-2306. The examiner can normally be reached on Monday-Friday 8:00 AM to 5:30 PM.
